### **DBL Law Earns Designation for Vaccination Rate**

August 9, 2021 - Covington, KY – DBL Law has been recognized as a Gold [COVID Stops Here](#) workplace for achieving a 90% vaccination rate.

The COVID Stops Here campaign recognizes Kentucky workplaces that have achieved widespread vaccination against COVID-19. Organizations that have achieved at least a 70% vaccination rate are eligible to receive a designation.

“I am very proud of our team for taking this pandemic seriously, understanding the value in protecting not only ourselves but our families, co-workers, clients and community,” remarked DBL Law Managing Partner Bob Hoffer.

The Kentucky Chamber of Commerce developed the COVID Stops Here campaign to celebrate workplaces that are leading the fight to stop COVID-19 — and to encourage more organizations to join their ranks.

“The COVID-19 vaccine is Kentucky’s pathway to recovery. DBL Law is helping set the bar for vaccination in Kentucky by achieving Gold COVID Stops Here status — meaning at least 90% of their employees are now vaccinated

against COVID-19. This is a great achievement and we thank them for helping our state stop this dangerous virus,” said Kentucky Chamber President and CEO Ashli Watts. “Employers are playing a very important as we work to encourage vaccination in Kentucky. In order to finally put this virus behind us, we need Kentuckians to get vaccinated as soon as possible. Together we can stop this virus, let’s make sure that COVID stops here!”
